SANTAFIXIE
CYCLING TEAM

RAW SANTAFIXIE TEAM

RAW Cycling Magazine and **Santafixie** joined their forces to create a powerful cycling team.

Riders with **experience at the highest level competition, serious, competitive, committed** and able to strive for success in major international competitions.

The participation of the team in these great events **gives us a huge visibility** to the public and media.

It helps us to **expand contacts, agreements, possible interviews, new events** and above all enjoy what we like.

The **world of fixed gear is at its peak** and these competitions are the perfect place to **gather the best urban riders along with professional riders from other disciplines** who decide to try the incredible feeling of riding with a fixed-gear bike. In addition, **there are more and more races; and brands, media and onlookers pay more and more attention** on these appointments.

We believe that setting up a team is a very positive way to grow as a brand, promote our image and contribute our bit to the world of cycling.
